

Ali Bel Haj Letaif

Cloud & DevOps Engineer | Specialist in Containerization (Docker/K8s) & Automation (Ansible/Terraform) | Full-Stack (Spring Boot & Angular)

+216 95 374 008 • ali.belhajletaif@esprit.tn • LinkedIn • GitHub: alibhl • Tunis, Tunisia

Professional Summary

Cloud & DevOps-oriented engineer with strong expertise in containerized Spring Boot and Angular applications. Experienced in CI/CD automation, Kubernetes orchestration, infrastructure as code, and production monitoring. Skilled in debugging, incident analysis, and building reliable distributed systems.

Technical Skills

Backend: Java, Spring Boot, Hibernate/JPA, REST APIs, Microservices

Frontend: Angular, AngularJS, TypeScript

Databases: SQL, MySQL, DB2, MongoDB

Containerization: Docker, Kubernetes

Automation & IaC: Terraform, Ansible

CI/CD: Git, GitLab CI/CD, ArgoCD

Monitoring: Prometheus, Grafana, ELK Stack

Methodologies: OOP, MVC, Clean Code, Agile/Scrum

Professional Experience

End-of-Studies Intern – SRE Platform Engineering

2026 – Present

EXCELLIA Solutions, Tunis

- Deployed containerized Spring Boot microservices on Azure Kubernetes Service (AKS).
- Automated infrastructure provisioning using Terraform and Ansible.
- Implemented GitLab CI/CD pipelines and GitOps workflows.
- Integrated monitoring (Prometheus, Grafana) and centralized logging (ELK).

Intern – Containerization & CI/CD

2025

Attijari Bank, Tunis

- Containerized Spring Boot + Angular application using Docker/Kubernetes.
- Designed and optimized CI/CD pipelines.

Academic Project

Private Cloud Infrastructure – OpenStack + Kubernetes (2025)

- Automated OpenStack deployment using Ansible.
- Designed HA Kubernetes cluster and deployed microservices application.

Education

Engineering Degree – Cloud Engineering, ESPRIT (2023 – Present)

Bachelor's Degree – Computer Systems, ISI Mahdia (2021 – 2023)

Certifications

AWS Academy Cloud Operations (2025) • Introduction to Kubernetes – Linux Foundation (2024)

Languages

Arabic (Native) • English (B2) • French (B2)
